

TRANSPORT CANADA – iMHZEV Eligibility Application

This application form is intended to develop and maintain the vehicle eligibility list under Transport Canada’s Incentive for Medium and Heavy Duty Zero-Emission Vehicles (iMHZEV) Program, which will be available online at: canada.ca/zero-emission-vehicles. Original Equipment Manufacturers (OEMs) are asked to fill out the information below in order for their potentially eligible MHZEV models to be considered. Please note that all variants/trims of a vehicle (with differences of class, gross vehicle weight rating, MSRP, or battery capacity) must be listed as separate line items. The initial and continued eligibility of a vehicle to the iMHZEV program is subject to Transport Canada’s sole and absolute discretion.

iMHZEV Program Eligibility Criteria

Eligible MHZEVs must meet all of the following criteria:

- ✓ Be a new Medium or Heavy-duty vehicle¹
- ✓ Be a battery-electric vehicle (BEV), hydrogen fuel cell electric vehicle (FCEV), or plug-in hybrid electric vehicle (PHEV)
- ✓ Meet all Canada Motor Vehicle Safety Standards, where applicable, and be intended for use on public streets, roads, and highways or other paved surfaces
- ✓ Be available for order/purchase/lease in Canada
- ✓ For class 2B and 3, be a commercial vehicle or a medium-duty passenger vehicle (MDPV) with an MSRP equal to or under \$100,000.
 - To be considered a commercial vehicle, one of the following criteria must be satisfied:
 - have a seating capacity of 9 passengers or more;
 - have a cargo area (for example, a pick-up truck box or bed) of at least 183 cm (72 in. or 6ft) in interior length; or
 - be a truck with container attachment capabilities (e.g., chassis cab, half truck).

¹ A vehicle with a gross vehicle weight rating (GVWR) above 8,500 pounds (Class 2B and above).
